Subject: CFAC [WARNING: SPF validation failed]

Hi Robert,

We met briefly at one of the C Falls meetings last spring – Lucy and Andrew Beltz introduced us – our kids are in school together.

I have participated in the CFAC Community Liaison Panel since its inception, and have worked with Senator Tester's staff on the issue as well.

I am writing primarily to ensure that I am on the EPA emailing/mailling list for the CFAC site and to provide my contact information.

I'd also love to better understand what type of community process EPA may be convening. I just received notice of a November meeting for the CFAC CLP, and would like to be up to date on EPA's plan as well.

Cheers

Erin
